**Re: 36" Trunk Sewer Replacement
Authorization to Bid**

Honorable Board Members,

Please authorize Clark Patterson Lee to bid the Contracts for the replacement and installation of the 36" parallel trunk sewer located between the West Seneca High School and Plant 5. The project will be split into two (2) separate contracts for scheduling and coordination purposes.

Contract 1 consists of replacing a section of the existing 36" trunk sewer located between Plant 5 and the Iron Workers with new 48" pipe. Contract 2 consists of installing a new parallel 36" wet weather sewer main along the existing 36" trunk sewer between the Iron Workers and the siphons near the High School.

We anticipate an advertisement date for the Contract 1 in May 2014 and a bid opening date of June 2014. Contract 2 will be bid later in the summer. Exact dates will be forwarded to the Town Clerk once we have a more firm schedule.

In both cases, contract documents will be available at the Town Clerks office prior to the advertisement date. Contract 1 is expected to be awarded at the June 2014 Town Board Meeting.

Funding for this work is budgeted under the \$30M capital sewer project.

Very truly yours,

A handwritten signature in black ink that reads "Jason A. Foote".

Jason A. Foote, P.E.
Town Engineer
