**Re: 2016 Road Reconstruction Projects
SEQRA Review and Determination**

Honorable Board Members,

We have reviewed the State Environmental Quality Review (SEQR) for the scope of road reconstruction work expected to be completed in 2016.

We believe this work shall be considered as a Type II Action according to the criteria set forth in (c)(1, 2, 4, and 5). Type II Actions are actions which have been determined to not have a significant effect on the environment and do not require Environmental Impact Statements or any other determination of procedure under the provisions of SEQR.

Type II actions are exempt and not subject to review. Therefore, no further action is required for the project pertaining to the SEQR.

However, it would be advisable for the Board to recognize, in a formal resolution, that the work is considered a Type II Action under SEQR. We have attached a suggested resolution for your use.

Very truly yours,
