For your consideration, I am seeking a variance in the building height of my 28' x 48' Pole Barn garage to accept the use of an 8:12 pitch attic truss. The 8:12 pitch will match the existing gable peaks on my house and garage. Vinyl siding and roof shingles will also match existing house. Included is height comparison to house and garage and location on property. The neighbor on corresponding property line has approved of the location and height.

Thank you,
